

AMPA

D2D Rep Recruiting & Management Platform

PLATFORM OVERVIEW | MAY 2026 | CONFIDENTIAL

AMPA is a purpose-built platform for D2D sales organizations. It covers the full rep lifecycle — from the first ad impression to a fully onboarded, producing rep — in a single connected system.

PLATFORM FEATURES & BENEFITS

01

AI Voice Screener — Sarah

Calls every applicant within 15 seconds of submitting their interest form. Runs a structured qualifying interview, filters out disqualified candidates, and logs the full conversation automatically.

No manager time spent on bad leads

02

Automated Text Sequence

Every lead enters a multi-touch SMS follow-up sequence automatically. Handles opt-outs, replies, and re-engagement without any manual effort.

Zero leads go cold

03

AI Onboarding Bot — William

Walks every new rep through onboarding step by step inside the platform. Covers payroll, team chat, training, pitch memorization, and scheduling their first Blitz. Separate flows for rookies and veterans.

Faster path to first sale

04

Rep Management Command Center

Real-time dashboard showing every rep in your downline. Color-coded status — active, in progress, or ghost mode — with built-in SMS and calling so managers can reach anyone instantly.

Full visibility, zero guesswork

05

Live Commission Dashboard

Shows reps their exact earnings and account totals in real time, built on your actual pay scales. Every milestone and tier is always visible.

Reps always know their number

06

Revenue Integration

Connects to your vertical's sales tracking to pull live production data into the Command Center. Managers see rep activity and revenue side by side.

Production visibility in one place

HOW IT FLOWS

- **Ad** — Rep sees a targeted Meta or Instagram ad
- **Application** — Fills out the interest form with SMS consent
- **Sarah calls in 15 seconds** — Screens, qualifies, and logs the full interview
- **Text sequence activates** — Keeps every lead warm automatically
- **Qualified lead books M2** — Manager conversation with a pre-screened candidate
- **Rep signs** — Appears instantly in the Command Center
- **William guides onboarding** — Step by step, inside the platform
- **First Blitz + First sale** — Rep is producing, tracked live on the dashboard

BUILD STATUS

Component	Status
Recruiting landing page + application form	Live
Sarah — AI voice screener	Live
Automated text sequence	Live
Call logging + database	Live
A2P 10DLC SMS compliance	Carrier approval in progress
Commission dashboard	Live
William — onboarding bot	In development
Rep Management Command Center	In development
Live revenue integration	Phase 2

Built for D2D

AMPA was built from the ground up for how D2D sales organizations actually operate — not adapted from a generic CRM. Every feature reflects real workflows, real pay structures, and real retention challenges.
